

Danilo Arnone

Centre for Affective Disorders, Institute of Psychiatry, Psychology and Neuroscience, London, UK

Danilo Arnone has recently completed his training in psychiatry as Clinical Lecturer at the Institute of Psychiatry, Psychology and Neuroscience, King's College London and Maudsley Hospital and his PhD at the University of Manchester in the UK.

He is currently affiliated to the Centre for Affective Disorders and South London and Maudsley NHS Trust. His research interest focuses on biological aspects of affective disorders and pharmacological treatment. He has developed expertise in multimodal magnetic resonance investigations of affective disorders in relation to stages of illness and clinical response.

He has received awards for his research including in 2013 the Research Prize of the European Psychiatric Association, category of 'Biological correlates and treatments of mental disorders' and in 2014 the Mental Health Research Prize from the Psychiatry Section of the Royal Society of Medicine.
